#### **CEO COMMENTS**

Taylor Pickett, Omega’s Chief Executive Officer, stated, “We are pleased with our fourth quarter results, as we continued to grow FAD per share, while reducing leverage to the lowest level in the company’s history.”

Mr. Pickett continued, “2025 represented a very strong year for the company, as we were able to accretively allocate \$1.1 billion to new investments, enabling us to grow FAD per share by 8.4% to \$2.96 from \$2.73 in 2024.”

Mr. Pickett concluded, “Importantly, the backdrop that allowed us to deliver strong shareholder returns in 2025 remains in place as we start 2026. Operating metrics continue to be strong, with operator coverage further improving in the quarter. The pipeline is very active, and we have a strong balance sheet and cost of capital that should allow us to continue to accretively invest.”

#### **BALANCE SHEET AND LIQUIDITY**

As of December 31, 2025, the Company had \$4.3 billion in outstanding indebtedness with a weighted average annual interest rate of 4.2%. The Company’s indebtedness consisted of an aggregate principal amount of \$3.8 billion of senior unsecured notes, \$242.0 million on its revolving credit facility, and \$300.0 million on the 2028 Term Loan. As of December 31, 2025, total cash and cash equivalents were \$27.0 million, and the Company had \$1.8 billion in undrawn capacity under its unsecured revolving credit facility.

#### **DIVIDENDS**

On January 29, 2026, the Board of Directors declared a quarterly cash dividend of \$0.67 per share, to be paid February 17, 2026, to common stockholders of record as of the close of business on February 9, 2026.

#### **2026 GUIDANCE**

The Company expects its 2026 Adjusted FFO to be between \$3.15 and \$3.25 per diluted share.

The guidance assumes:

- all new investments disclosed above in the press release;
- no additional operators are placed on a cash-basis for revenue recognition;
- Genesis continues to pay its full contractual rental obligations of \$13.0 million per quarter;
- Maplewood pays rent at \$6.3 million in January (actual payment), increasing to \$6.5 million per month starting February;
- quarterly G&A expense of approximately \$13 million to \$15 million;
- no material changes in market interest rates or changes in foreign currency exchange rates due to derivative instruments entered into to minimize the fluctuation in the GBP spot rates;
- \$56 million of the \$213 million in mortgages and other real estate-backed investments that are set to mature in 2026 will be converted from loans to fee simple real estate and the remaining balance will be repaid in 2026;
- \$196 million of the \$267 million in non-real estate backed loans at December 31, 2025 that are set to mature in 2026 will be repaid throughout 2026 (including \$137 million in loans to Genesis to be repaid in June 2026) with the balance to be extended beyond 2026; and
- approximately \$15 million to \$25 million per quarter in asset sales.

The Company’s guidance is based on several assumptions including those noted above, which are subject to change and many of which are outside the Company’s control. However, it excludes any additional:

- acquisitions or acquisitions costs;
- capital markets activity;

---

- interest refinancing expenses;
- provisions for credit losses, if any; and
- certain revenue and expense items.

If actual results vary from these assumptions, the Company's expectations may change. Without limiting the generality of the foregoing, the timing of collection of rental obligations from operators on a cash basis and the timing and completion of acquisitions, divestitures, restructurings and capital and financing transactions may cause actual results to vary materially from the Company's current expectations. There can be no assurance that the Company will achieve its projected results. The Company may, from time to time, update its publicly announced AFFO guidance, but it is not obligated to do so.

The Company does not provide a reconciliation for its AFFO guidance to GAAP net income because it is unable to determine meaningful or accurate estimates of reconciling items without unreasonable effort. This is due to the inherent difficulty of forecasting the timing and/or amounts of various items that would impact future net income. This includes, but is not limited to, changes in the provision for credit losses, real estate impairments, acquisition, merger and transition related costs, straight-line write-offs, gain/loss on assets sold, etc. In particular, the Company is unable to predict with reasonable certainty the amount of change in the provision for credit losses in future periods, which is often a significant reconciling adjustment.

#### **ADDITIONAL INFORMATION**

Additional information regarding the Company can be found in its Fourth Quarter 2025 Financial Supplemental posted under "Financial Info" in the Investors section of Omega's website. The information contained on, or that may be accessed through, Omega's website, including the information contained in the aforementioned supplemental, is not incorporated by any reference into, and is not part of, this document.

(1) The year ended December 31, 2025 includes the application of \$4.3 million of security deposits (letters of credit and cash deposits) in revenue. The three months and year ended December 31, 2024 include the application of \$0.5 million and \$2.2 million, respectively, of security deposits (letters of credit and cash deposits) in revenue.

(2) The year ended December 31, 2025 includes a \$15.5 million non-cash straight-line accounts receivable write-off in connection with moving an operator to cash basis as a result of being notified that there is substantial doubt regarding the operator's ability to continue as a going concern. The operator made all contractual rent payments in 2025. The year ended December 31, 2025 also includes a \$10.0 million lease inducement recorded in Q1 as a reduction to rental income related to a one-time payment made to an operator upon entering a new 10-year master lease.

(3) The year ended December 31, 2025 includes \$6.6 million of non-cash stock-based compensation expense associated with the previously disclosed leadership transition that occurred in January 2025.

(4) Primarily consists of cash interest received on seller financing loans related to asset sales not recognized, gains and losses associated with certain financial instruments and foreign currency and other normalizing revenue and expense adjustments for discrete items.

(5) Adjusted funds from operations per share and funds available for distribution per share can be calculated using weighted-average common shares outstanding, diluted, as shown above.

(6) For the three months and year ended December 31, 2025, Non-cash expense is not adjusted to include \$1.5 million and \$9.1 million, respectively, of amortization related to the above market loan assumed as part of the Cindat JV acquisition in July 2024. For the year ended December 31, 2024, Non-cash expense is not adjusted to include \$4.4 million of amortization related to the above market loan assumed as part of the Cindat JV acquisition. The above market loan was fully repaid in November 2025.

Nareit Funds From Operations (“Nareit FFO”), Adjusted FFO and Funds Available for Distribution (“FAD”) are non-GAAP financial measures. As used in this press release, GAAP refers to generally accepted accounting principles in the United States of America. The Company has provided reconciliations of the non-GAAP financial measures to the most directly comparable GAAP financial measures.

The Company calculates and reports Nareit FFO in accordance with the definition and interpretive guidelines issued by the National Association of Real Estate Investment Trusts (“Nareit”), and consequently, Nareit FFO is defined as net income (computed in accordance with GAAP), adjusted for the effects of asset dispositions and certain non-cash items, primarily depreciation and amortization and impairments on real estate assets, and after adjustments for unconsolidated partnerships and joint ventures and changes in the fair value of warrants. Adjustments for unconsolidated partnerships and joint ventures will be calculated to reflect funds from operations on the same basis. Revenue recognized based on the application of security deposits and letters of credit or based on the ability to offset against other financial instruments is included within Nareit FFO. The Company believes that Nareit FFO, Adjusted FFO and FAD are important supplemental measures of its operating performance. Because the historical cost accounting convention used for real estate assets requires depreciation (except on land), such accounting presentation implies that the value of real estate assets diminishes predictably over time, while real estate values instead have historically risen or fallen with market conditions. The term funds from operations was designed by the real estate industry to address this issue. Funds from operations described herein is not necessarily comparable to funds from operations of other real estate investment trusts, or REITs, that do not use the same definition or implementation guidelines or interpret the standards differently from the Company.

Adjusted FFO is calculated as Nareit FFO excluding the impact of non-cash stock-based compensation and certain revenue and expense items (e.g., acquisition, merger and transition related costs, straight-line rent and other write-offs, recoveries and provisions for credit losses (excluding certain cash recoveries on impaired loans), severance expense and other normalizing items). FAD is calculated as Adjusted FFO less non-cash expense, such as the amortization of deferred financing costs, and non-cash revenue, such as straight-line rent. FAD includes the non-cash amortization of premiums associated with the fair value of debt assumed in acquisitions. The Company believes these measures provide an enhanced measure of the operating performance of the Company’s core portfolio as a REIT. The Company’s computation of Adjusted FFO and FAD may not be comparable to the Nareit definition of funds from operations or to similar measures reported by other REITs, but the Company believes that they are appropriate measures for this Company.

The Company uses these non-GAAP measures among the criteria to measure the operating performance of its business. The Company also uses FAD among the performance metrics for performance-based compensation of officers. The Company further believes that by excluding the effect of depreciation, amortization, impairments on real estate assets and gains or losses from sales of real estate, all of which are based on historical costs, and which may be of limited relevance in evaluating current performance, funds from operations can facilitate comparisons of operating performance between periods. The Company offers these measures to assist the users of its financial statements in analyzing its operating performance. These non-GAAP measures are not measures of financial performance under GAAP and should not be considered as measures of liquidity or cash flow, alternatives to net income or indicators of any other performance measure determined in accordance with GAAP. Investors and potential investors in the Company’s securities should not rely on these non-GAAP measures as substitutes for any GAAP measure, including net income.
